

2025 HOSPITAL AUTHORITY CONVENTION

26-28 MAY

Hong Kong Convention & Exhibition Centre
香港會議展覽中心

醫院管理局研討大會

Preliminary Programme 暫定程序表

26 May 2025

Grand Hall ^ #			
0845-0945	Opening Ceremony		
0945-1030	Break		
1030-1200	Opening Plenary – Healthcare Management: Change for the Future (OP)		
	Healthcare Development in Mainland *		
	Healthcare Collaboration in Greater Bay Area *		
	Change Management		
1200-1330	Boosting Translational Medicine: European Experience		
	Break		
	Grand Hall ^ #	N101A	N101B
	Plenary I – Cancer Screening and Therapy (P1)	Service Enhancement Presentation 1 (SEP1)	Service Enhancement Presentation 2 (SEP2)
1330-1445	Liver Metastasis	Better Manage Growing Demands I	Staff Engagement and Empowerment
	Colorectal Cancer Screening – the Missing Gap	Better Manage Growing Demands II	Clinical Safety and Quality Service I
	Circulating DNA in Screening of Cancers		
1445-1500	Break		
1500-1615	Plenary II – Integrated Chinese-Western Medicine (P2)	Service Enhancement Presentation 3 (SEP3)	Service Enhancement Presentation 4 (SEP4)
	State-Target Differentiation and Treatment “ 態靶辨治 ”: Research and Future Direction of Chinese and Western Medicine *	Clinical Safety and Quality Service II	Innovations, Research and Healthcare Advances
	Application of Artificial Intelligence (UNIQ System* 中醫藥原理智慧解讀系統 *) and Network Pharmacology on Integration of Chinese and Western Medicine *	Clinical Safety and Quality Service III	Collaboration and Teamwork
1615-1730	Plenary III – Healthcare Management: What Could be Done for Better Healthcare? (P3)	Service Enhancement Presentation 5 (SEP5)	Best Poster Presentation Award and Sharing Session (Cat 4 to 9)
	Management of a public hospital in Mainland	Young Hospital Authority Investigators Presentations	
	How National Health Service Can Be Funded?	Best Poster Presentation Award and Sharing Session (Cat 1 to 3)	
	Managing Quality and Safety in Healthcare Services – the Future Challenges (TBC)		

^ Simultaneous interpretation (English/Putonghua) is available at this venue

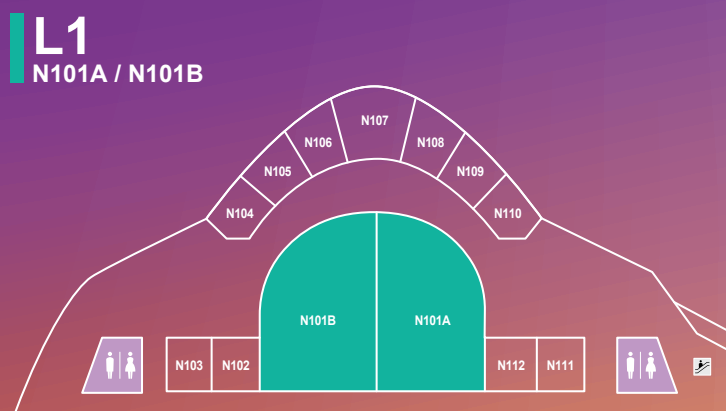

* Presentation in Putonghua

Sessions will be available online

Updated as at 8 March 2025

Floor Plan (Phase 2, HKCEC)

26 May 2025

	Convention Hall ^ #	Theatre 1 #	Theatre 2 #	Room S221 #	Room S224 & S225	Room S226 & S227	Room S421	Room S423 & S424
0845-1015	Plenary IV – Updates in Neurodegenerative Diseases and Recent Research Studies in Hong Kong (P4)	Symposium 1 – Medical Equity: Organ Transplant (S1)	Symposium 2 – Empowerment and Engagement of Staff in Healthcare (S2)	Symposium 3 – Medical-Social Collaboration and Patient Empowermen (S3)	Masterclass 1 – Renal Genetics and Onconeurology in 2025 (M1)	Special Session 1(S1) – Striving for Clinical Excellence in HKUMed	Parallel Session 1(PS1) – Transforming Health Care Services	Masterclass 2 – Advanced Radiation Therapy for Cancer Service in Hong Kong (M2)
	Understanding the Biomarkers of Alzheimer's Disease: Insights into Innovative Diagnosis and Therapeutics Advancing Clinical Practice: Innovative Biomarker Technologies for Neurodegenerative Disease Management Integrating Multiomics in Diagnosis and Treatment Development Roundtable Discussion: Clinical Research Development and Application in Hong Kong – Opportunities and Challenges	Recognising and Overcoming Inequity in Transplantation Advancing Medical Equity through Data-driven Decision Making: A National Organ Allocation System Perspective	Empowering and Engaging Doctors in Training through Workplace-based Learning Hospital Accreditation: Tool for Staff Engagement Technology and Generative Artificial Intelligence Chatbots: Tools for Healthcare	Care Transition and Community Partnerships for Patients in Need From Medical Paternalism to Care Partnerships	Renal Genetics – coming of Age? Onconeurology – what Can a Nephrologist Do?	The Coming of Age of Implementation Science and Research in Critical Care Medicine Expanding Perspectives on Clinical Service Planning and Delivery in Cancer Management From Bench to Bedside: Building Hepatitis E Clinical Laboratory Services in Hong Kong Advanced Imaging during Surgery	Data-Driven Approaches to Emergency Care Data-Driven Disease Monitoring Transforming Ophthalmic Care with Artificial Intelligence	Hypofractionation and Stereotactic Body Radiotherapy for Prostate Cancer Use of Proton Therapy – Experience Sharing on the Pilot Collaborative Programme with the Private Hospital Use of Proton Therapy – the Application of Proton Therapy on referred Paediatric Patients Spatial Fractionated Radiation Therapy
1015-1045	Break							
1045-1215	Plenary V – Sustainable Healthcare Facilities (P5)	Symposium 4 – Striving for Clinical Excellence in HKU-Shenzhen Hospital (S4)	Symposium 5 – Cultural Transformation for Organ Donation (S5)	Special Session 2 (SS2) – Symposium on Ethical, Legal and Social Aspects of Artificial Intelligence	Masterclass 3 – Filmless and Paperless Consultation (and Artificial Intelligence) in Ophthalmology (M3)	Symposium 6 – Evidence-based Development in Integrated Chinese-Western Medicine (S6)	Parallel Session 2 (PS2) – Integrated Digital Health Care	Masterclass 4 – Cancer Survivorship and End-of-Life Care in the Community (M4)
	Sustainable Healthcare Facilities: Green Design and Energy-Smart Initiatives Artificial Intelligence and Robotic Development: Where Are We Now? The Development of Green Hospitals and Decarbonisation of Health System	Clinical Excellence in The University of Hong Kong - Shenzhen Hospital – Its Strategic Role in the Greater Bay Area Advancement and Development of Spine Deformity Correction Medicine Advances in In Vitro Fertilization	HOPE (Help Organs Perpetuate Ever) Team Pilot Project in New Territories West Cluster Donation from Controlled Circulatory Death Paediatric Renal Transplant	Governance of Artificial Intelligence in Healthcare: Global and Local Perspective Artificial Intelligence in Sports and Exercise Medicine The Use of Artificial Intelligence in Academic Writing	Review on Ophthalmic Filmless Project in Hospital Authority Electronic Health Record Development in Hospital Authority: Challenges and Opportunities Paperless Consultation – Experience in Kowloon East Cluster Use of Mobile Phone and Artificial Intelligence in Ophthalmic Health Care Artificial Intelligence in Ophthalmology from Research to Clinical Usage	The Strategic Development of Clinical Practice Guidelines for Knee Osteoarthritis with Integrative Medicine in China The Establishment and Planning of Integrated Chinese-Western Medicine Programme in Knee Osteoarthritis Care in Hong Kong	A 30-year Retrospective in Digital Health in the Hospital Authority - What is in Store for the Next 30 Years? Personalising Patient Care Using Artificial Intelligence Integrating eHealth Records with Generative Artificial Intelligence	Prostate Cancer Survivorship – Pathway from a Hospital-based Oncology Service to a Community-based Health Service Breast Cancer Survivorship Care – Nurse-led Clinic Facilitating End-of-Life Care in the Community – A Community Care Collaboration Model: Experience Sharing from Kowloon West Cluster
1215-1400	Break							
1400-1530	Plenary VI – Health Economics (P6)	Symposium 7 – Cybersecurity (S7)	Symposium 8 – Innovations in Service Models (S8)	Symposium 9 – Retirement Preparation – A New Page of Life? (S9)	Symposium 10 – Medical Social Collaboration (S10)	Special Session 3 (SS3) – Combating Communicable and Non-communicable Diseases with Advanced Health Technology	Symposium 11 – Epigenetic and Disease (S11)	Masterclass 5 – Cutting Edge Technology Assisted Orthopaedic Surgery in Hong Kong (M5)
	Dialysis Economics: Addressing Global Burden of Kidney Disease Entrepreneurship in Medicine	Building Resilient Health Information Technology Infrastructure for Future Crises Protecting Patient Data Collaboration between Clinical Staff and Information Technology for Enhanced Cybersecurit	Use of Intelligent Solutions to Support High Volume Ophthalmic Services Digital Management of Childhood Asthma	Wealth Management and Pension Strategy 《投資理財長知識》 “Yo Yo ‘Free’ Retirement Life” 《悠悠退休三部曲》: Dream Big, Plan Smart - Achieving Wealth, Health and Live Well Goals Retirement Ready: How Employers Can Help Employees Secure Their Future	Medical-social Collaboration Project with the Siu Lam Integrated Rehabilitation Services Complex Smart Hub in Supporting Rural Areas Empowering Cancer Survivors: A Social Collaboration Model in Kowloon West Cluster	Develop Artificial Intelligence and Genomic Technologies for Personalised Diagnosis and Therapy of Psychiatric Disorders – From Humans to Mice and Back Innovative Genomic Tools in One Health: Addressing Emerging Pathogens in a Changing Environment Clinical Application of High throughput Molecular Technologies for Integrated Cancer Genomic Diagnosis	What is Epigenetics and Its Relevance to Disease Mapping Epigenomic Landscape to Unravel Disease Mechanism Constitutional MLH1 Methylation as a Cause of Lynch Syndrome	Evolving Trends in Robotic Assisted Joint Replacement Surgery in Hong Kong Robotic Assisted Spine Surgery: Our Experience and the Evidence Discovering New Horizons in Orthopaedic Trauma Management and Training – Robotic and Virtual Reality 3D Printing Revolutionising Orthopaedic Surgery – its Impact in a Regional Hospital Immersive Technology, Mixed Reality in Orthopaedic Oncology: Clinical Experience and Journey in Implementation in Hospital Authority Hospital
1530-1600	Break							
1600-1730	Plenary VII – Prevention and Cure of Common Cancers (P7)	Symposium 12 – Patient Blood Management and Women's Health (S12)	Symposium 13 – Maximising Impact on Clinical Workforce through Artificial Intelligence and Virtual Hospital (S13)	Symposium 14 – Innovative Development in Hong Kong (S14)	Symposium 15 – Adversity Management and Resilience - From Sportsman Perspective (S15)	Special Session 4 (SS4) – Prevention and Control of Virus-related Cancers	Symposium 16 – Healthcare Innovations (S16)	Masterclass 6 – Algorithms of (Public-funded) Prenatal Screening and Diagnosis in Hospital Authority (M6)
	Screening for Lung Cancer in Hong Kong Liver Cancer: The Preventable Cancer	Achieving and Maintaining Blood Health Globally Empowering Women's Health in the Era of Patient Blood Management Strategy to Reduce Iron Deficiency in Hong Kong	Role of Artificial Intelligence in Diagnostic Radiology Virtual Ward Experience in the United Kingdom Application of Artificial Intelligence in Hospital Authority	Spatial Data Development Reinventing the Airport Experience Smart Business Support Services in Hospital Authority Integration of Hospital and Ambulance Transfer System	Roundtable Discussion: Adversity Management and Resilience	Prevention and Screening of Cancer Prevention and Control of Viral Hepatitis B HPV Vaccination Catch-up Programme	Applications and Innovations of Humanoid Robot in Hong Kong Breakthrough in Local Advanced Therapy Product Manufacturing for Cell Therapy and Direct Impact to Patients in Hong Kong Innovative Applications in Healthcare System	History of Development of the Algorithms over 30 years Clinical Audit of the Current Algorithms Next-generation Algorithms with 1st Tier Non-invasive Prenatal Testing (T21/T8/T13) for Screening and Low Pass Genome Sequencing for Diagnosis (Alternative Option to Chromosomal Microarray)

	Convention Hall ^ #	Theatre 1 #	Theatre 2 #	Room S221 #	Room S224 & S225	Room S226 & S227	Room S421	Room S423 & S424
0845-1015	Plenary VIII – Preparedness of the Next Pandemic ^(P8)	Symposium 17 – Climate Change and Us: Sustainability in Healthcare ^(S17)	Symposium 18 – Leadership and Research ^(S18)	Symposium 19 – Emergency Care for Critical Conditions: the China Experience ^(S19)	Masterclass 7 – Smarter Neurosurgery ^(M7)	Masterclass 8 – Mycobacteria: the Past, Present and Future ^(M8)	Symposium 20 – Technological Innovation in Healthcare and Medical Education ^(S20)	Masterclass 9 – Updates and Recent Advances in Paediatrics ^(M9)
	病菌與人類科技：在對抗中演變 * (Pathogen and Human Technology – Evolution in Confrontation) Tackling Emerging Infections and Pandemic Threats – Some Highs and Lows from the Last 30 Years	Air Pollution and Health under Climate Change Occupational Health Challenges in the Green Economy Climate Change, Impact and Risk	Medical Education in Mainland China and Hong Kong New Era of Medical Education Exploiting the Impact of Academic Research through Entrepreneurship The strength of the University Hospital Model: Care, Teaching, Research and Innovation	Critical Care Triage in Emergency Care Green Channel for Chest Pain, How Can We Do It Time is Brain	Magnetic Resonance Imaging-guided Focused Ultrasound Surgery Stereo-electroencephalography Intraoperative Magnetic Resonance Imaging Deep Brain Stimulation Intraoperative Computed tomography	Tuberculosis: Old Problem Seeking New Solution Non-tuberculous Mycobacteria: the Emerging Problem Challenges in Tackling Drug Resistant Tuberculosis Mycobacterial Pulmonary Diseases: Where Are We Now? Tuberculosis Prevention and Control in Macau	Use of Artificial Intelligence in Improving Patient Experience Application of Artificial Intelligence in Anaesthesia and Perioperative Medicine Bridging Tomorrow: Jockey Club Institute for Medical Education and Development's Innovative Strategies for Reshaping Postgraduate Medical Education Future Education in Hospital Authority	Atypical Hemolytic Uremic Syndrome In Children – Updates and Recent Advances Precision Medicine in Paediatric Acute Leukemia Precision Medicine in Paediatric Brain Tumours and Solid Tumours
1015-1045	Break							
1045-1215	Plenary IX – Next Generation Accreditation in Healthcare: Sustainability ^(P9)	Parallel Session 3 – Achieving Nursing Excellence through Contemporary Approach I – Transformation Leadership ^(PS3)	Symposium 21 – New Hospital Commissioning ^(S21)	Parallel Session 4 – Hospital Authority Data Collaboration Lab Showcase ^(PS4)	Masterclass 10 – Sudden Death Prevention in the Young - Molecular Autopsy and Familial Screening Service ^(M10)	Symposium 22 – Telehealth in Community ^(S22)	Parallel Session 5 – Striving for Clinical Excellence through Application of Advanced Technology to Allied Health Services ^(PS5)	Masterclass 11 – Perioperative Brain and Block: Strategies for Optimal Patient Outcomes ^(M11)
	Accreditation for the Future – Concepts and Models Accreditation as an Ally for Low-Carbon, Resilient Hospitals Adapting an International Accreditation System to Local Custom and Practice Next Generation of Hospital Accreditation	Driving nursing excellence with innovative ePROMs implementation in oncology care: insights from the United Kingdom practices Nurturing the Next Generation for Nursing Leadership and Excellence Leadership Transformation as a Health Advocate through the Learning of Programme Nurturing Our Young Generation and Empowering Our Future Leaders with Legacy	科技賦能醫院智慧後勤建設與運維 * (Technology Empowers Hospital Smart Logistics Construction and Operation and Maintenance) Healthcare Infrastructure Development - The Tan Tock Seng Hospital Experience Kwong Wah Hospital Redevelopment Project	Risk Prediction and Complication Reduction of Chronic Viral Hepatitis Automatic Hip Fractures Detection and Application in Hospital Authority EHPD Data Service Roundtable discussion	Forensic Investigations in Victims of Sudden Death Molecular Autopsy Investigations in Sudden Death Genomics in Sudden Death Conditions and Genetic Counselling Precision Medicine in Cardiac Channelopathy and Cardiomyopathy Cardiac-genetic Service and Clinical Screening	Virtual Ward Service Telehealth Support to Residential Care Home for the Elderly Telehealth in Community Nurse Digital Screening in the Community – the Key for Primary Health Care	Application of Deep Learning and Artificial Intelligence in Radiotherapy Adoption of Artificial Intelligence in Radiotherapy Adoption of Artificial Intelligence in Diagnostic Radiology Adoption of Artificial Intelligence in Radiotherapy in Hospital Authority – Local Application	The Role of Anaesthetists in Promoting Brain Health Part 1: Integrating Brain Health into Geriatric Hip Fracture Care Part 2: Perioperative Brain Health Initiative for Colorectal Surgery Patients Neurolysis and Block Techniques: Enhancing Pain Management Part 1: Neurolysis Service in Queen Elizabeth Hospital Part 2: Perioperative Pain Management
1215-1400	Break							
1400-1530	Plenary X – Palliative Care and End-of-life Care in the Community ^(P10)	Special Session 5 – Artificial Intelligence and Robotics in Endoscopy and Surgery ^(SS5)	Symposium 23 – Technological Innovation in Hospital Constructions ^(S23)	Parallel Session 6 – Achieving Nursing Excellence through Contemporary Approach II – Innovation and Clinical Research ^(PS6)	Masterclass 12 – Intensive Care Unit Triage Tools and Resource Utilisation ^(M12)	Symposium 24 – Statistics and Data Science in Healthcare: Unlocking the Power of Data ^(S24)	Parallel Session 7 – New Frontiers for Innovative Allied Health Practices for a Better Patient Care ^(PS7)	Masterclass 13 – Dyspnoea: A Treatable Trait ^(M13)
	Shared Decision Making in End-of-Life Care Innovations in Day Palliative Care	The Past, Present and Future of Robotics in Surgery and Endoscopy Artificial Intelligence / Robotics in Urology The Current Landscape and Roadblocks of Artificial Intelligence in Gastroenterology – Global Perspectives Artificial Intelligence in Endoscopy Training – Ready for Prime Time?	Latest Development Trend of Modern Hospitals From Theory to Adoption of Innovative Technologies – Key Applications to Healthcare Facilities Transforming Healthcare: from Clinical and Operational Planning to Delivering Modern Health Facilities	Integrating Evidence-based Practice into Point-of-Care Ultrasound on Nasogastric Tube Placement Verification at Multiple Centres in the Community Urine pH Measurement by Using a New Hand-held Urinary pH Meter versus Traditional Reagent Strips versus Laboratory pH Meter on the Recurrent Urinary Stone-formers Application of Virtual Reality for Enhancement of Pre-operative Patient Education Effectiveness of Psychiatric Simulation Training for staff working in Community Psychiatric Service	Saving the Most Lives: A New Analytical Triage Framework for Improving Hospital Operational Efficiency and Fairness Triage Decisions for Intensive Care Unit Admissions	Evaluating the Clinical and Operational Impact of Artificial Intelligence Hong Kong Mortgage Corporation Longevity Risk Project Big Data Analytics Solutions in Hospital Authority	Telehealth Physiotherapy Clinical Application of Advanced Technology in Neuro-rehabilitation from Occupational Therapy Perspective Incorporating Technology into Clinical Practice in Clinical Psychology Navigating Telehealth: Best Practices and Strategies for Effective Implementation in Allied Health Care	What is Causing This Patient's Dyspnoea? Role of Cardiopulmonary Exercise Testing The Multiple Dimensions of the Dyspnoea Sensation: Dyspnoea 12 Hong Kong Patient's Experience of Dyspnoea: D12 Chinese Pulmonary Rehabilitation: Non-pharmacological Treatment to Managing Dyspnoea Increasing Coverage of Pulmonary Rehabilitation Programme through Tele-rehabilitation
1530-1600	Break							
1630-1730	Convention Hall							
	Presentation of Awards Hospital Authority Outstanding Staff and Teams Award and Young Achievers Award 2025							

2025 HOSPITAL AUTHORITY CONVENTION 醫院管理局研討大會
